### MOODY BLUES

Inspired by the water views outside, designer Judith Lattuca chose a cool palette of ocean blues, accented with silver and black for this glamorous bedroom. Stationary silk draperies layered over a solar shade frame the view. To up the glamour, she highlighted the streamlined headings with wide bands of solid silk fabric, pairing them with the small checked silk below. Black metal hardware sets off the soft reversed pinch pleats (right), striking a pleasing balance between modern and traditional.
